In order to establish the correct size of your child, simply measure over their clothes, using the following as a guideline. The measurement that you get, in inches, corresponds to the size of the garment, for example, a measurement of 40 inches corresponds to a size 40 jumper/blazer etc:-

Chest: Measure under your arms and then across your shoulder blades and the largest part of your chest.

Collar: Measure around the base of the neck where the collar sits, inserting two fingers between the neck and tape to allow for growth.

Waist: Measure the natural waistline.

Inside Leg: Measure from the crotch to where your trouser is normally worn on the shoe.

Hips: Measure around your hips (20cm / 8") below your natural waistline.
